

Receiving Furniture from DBSchenker

DBSchenker is an international freight forwarder. Your furniture will be crated by us and shipped by air to an air freight terminal near your location. We will provide contact information for an agent at that terminal. We will charge you for delivery to that terminal.

Duties and Taxes

We do not estimate duties and taxes or charge for them. The local agent, mentioned above, will be able to estimate or quote those for you.

Delivery

The simplest and least expensive option for receiving the furniture is for you to pick it up at the air freight terminal. If this is not possible, we, or the local agent, can arrange for delivery to your location. The duties, taxes, and cost of local delivery, if any, must be paid when receiving the furniture.

Possible Damage

We very carefully wrap and crate the furniture. If the furniture is damaged, refuse it. Write the nature of the damage on the delivery receipt. We will replace the furniture or refund your money.
