

# The Wilson Dining Chair

This chair is a rare combination of utility, beauty, and workmanship.

**Utility:** it is comfortable for long dinners and conversations, it is easy to move in, out, and around the table, and it will last for generations.

**Beauty:** The lines and contours of the Wilson Chair are as classically pleasing as the ideal human form.

If you are considering a set, we will send you a chair, at our expense, for a trial in your home.
